# What is GOTS?

---

The O'ahu Youth Action Board (OYAB), a group of youth who have been or are homeless, came up with ways to end youth homelessness.

One of their ideas was to create a program where youth would get a "**Guide On The Side**" who would help them navigate all the systems they go through (like the criminal justice and foster care systems).

This idea became reality, and GOTS was formed. Now, we're here and ready to work with you to succeed!

# Who can join?

---

If you are **unhoused** and **between 18 and 24 years old**, you are eligible. You just have to be willing to create goals with GOTS staff and work to achieve them.

# What can we assist with?

---

**basic needs**

**housing**

**identification documents**

**employment**

**education**

**medical care**

**behavioral health**

**family support**

(If you have a goal that's not on this list, reach out, and we can figure it out!)
